MINUTE ORDER

Page 1 of 1

Various Districts

Minute Order 105686, dated June 27, 1995, established a subdivision of the state highway system classified as the Urban Road (UR) system. The order provided that Farm to Market (FM) or Ranch to Market (RM) roadways within urbanized areas with populations of 50,000 or more were eligible for the UR designation and certain FM and RM roads were redesignated as Urban Roads.

The provisions of Minute Order 105686 were never implemented by the Texas Department of Transportation (department). The UR designation was not reflected in any roadway inventory database and no UR signs were erected. Neither the department nor the public adopted the UR designation into common usage. The only system which presently references the UR designation is the department's highway designation files website. Maintaining those UR designations causes confusion because the files reference the cancellation of FM and RM roadway designations which are still active.

Pursuant to Texas Transportation Code, §§201.103 and 221.001, the executive director of the department recommends rescinding Minute Order 105686. The rescission will allow the department to update the highway designation files to ensure accuracy and consistency with current roadway inventory data and to prevent confusion as to the appropriate designation of certain roadways.

The Texas Transportation Commission (commission) finds that this action is necessary for the proper development and operation of the state highway system.

IT IS THEREFORE ORDERED by the commission that Minute Order 105686 is hereby rescinded.
